Your money. On WhatsApp.

Effective 1 September 2026 until updated. All fees include VAT.

WaPay is not a bank or financial institution. WaPay is a digital voucher and payments service delivered over WhatsApp, operating on licensed payment rails. Terms, conditions and product rules apply. wapay.co.za

— LIKE A BANK. ON WHATSAPP.

The wallet that lives where you already are.

28 million South Africans open WhatsApp every day. WaPay puts your money in the same place: load cash, send money, buy airtime and electricity, pay bills, shop at over 26,000 stores and cash out — all by chatting, in your language. No app to download, no bank card, no branch, no paperwork. Just your phone number.

26,000+

retail stores accept WaPay payments

150,000+

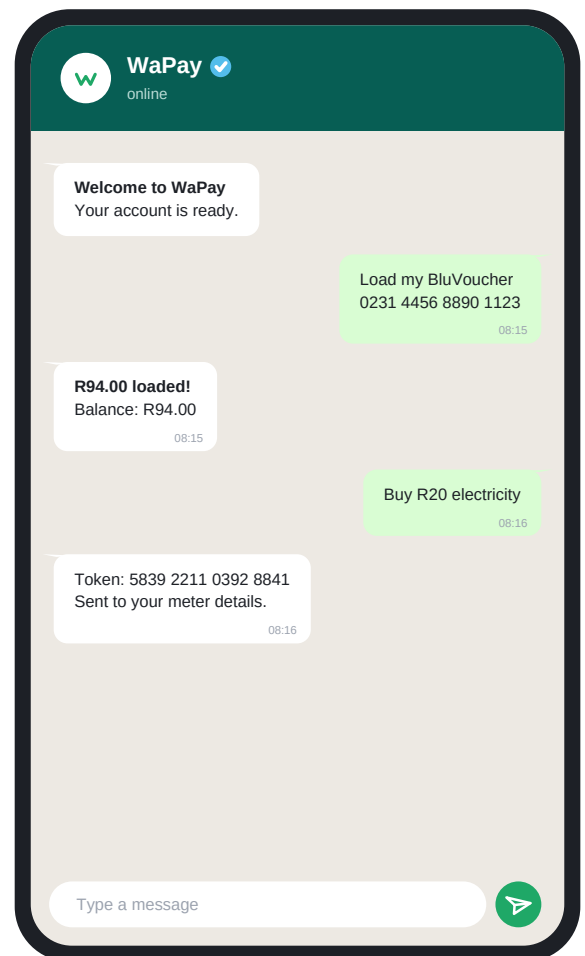

spaza shops & tills sell BluVouchers to load

5

South African languages, one natural chat

R0

monthly fees — free everyday transactions

Not a bank. On purpose.

WaPay is a digital voucher & payments service running on licensed payment networks. That's why there are no branches to fund, no forms to fill and no monthly fees to pay — and why you can start with nothing but a hello.

FROM HELLO TO MONEY IN MINUTES

How WaPay works

1

Open your account

Message WaPay on WhatsApp. Your number is your account — no forms, no paperwork, no branch.

2

Load money

Buy a BluVoucher at any spaza shop, deposit via Pay@ at major retailers, or use EFT, Capitec Pay or card.

3

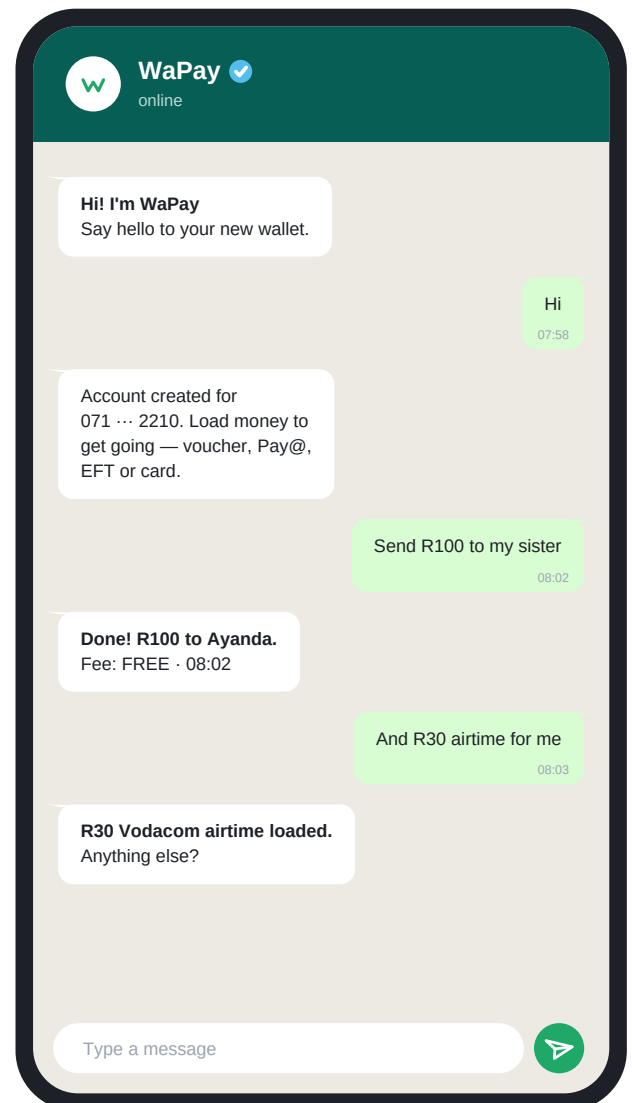

Do everything

Send money, buy airtime, data and electricity, pay bills, shop in-store, fund your betting account, or cash out.

4

All in one chat

Just say what you need, in your language. No menus, no apps, no clicks. WaPay understands you.

Voucher and Pay@ loads land instantly; EFT reflects within minutes. From first hello to first payment is typically under five minutes.

— ONE CHAT, WHOLE WALLET

Everything WaPay does

01

Load money anywhere

BluVoucher at 150,000+ spaza shops, Pay@ deposits at Shoprite, Checkers & Pick n Pay, EFT, Capitec Pay or card.

02

Send money free

WaPay-to-WaPay transfers are free and instant. Send a R3 voucher to any SA cellphone — even without WaPay.

03

Airtime & data

Every network, best prices, zero fees. Buy for yourself or anyone you love.

04

Prepaid electricity

Token delivered straight into the chat, day or night. No queues, no fees.

05

Pay your bills

DStv and more — settled in seconds from your wallet.

06

Shop in-store

Pay at 26,000+ retail locations: Shoprite, Woolworths, Clicks, Dis-Chem, Spar, Makro and more.

07

Vouchers & betting

HollywoodBets, Betway, LottoStar, Netflix, Showmax, Spotify — bought in one message.

08

Cash out

PayShap to any bank from R6, or cash at Pick n Pay & Checkers tills. Flat fees, always.

All of it, one message away.

No app store, no forms, no queue. Everything on this page happens in the WhatsApp chat you already have open.

CHAT LIKE YOU TALK

No menus. No codes. Just say it.

Other services give you menus, submenus and USSD strings to memorise. WaPay reads plain human language — five of South Africa's languages, slang and typos included — and does the thing you asked. It's the difference between operating software and sending a text.

English

isiZulu

isiXhosa

Sesotho

Afrikaans

Things you can just type:

"Send R50 to Thabo"

"Thumela u-R100 ku-mama"

"Ndithengele i-airtime ye-R30"

"Nthekele motlakase wa R200"

"Stuur R250 na Pieter"

Help never leaves the chat.

Our AI assistant answers instantly, any hour. Real humans step in when it matters — in your language, in the same conversation. No call centre queues, no ticket numbers.

THE NETWORK

WaPay works where you already shop

From the spaza on your corner to the biggest chains in the country — load, spend and cash out across one of South Africa's widest acceptance networks.

Retailer and partner names indicate acceptance networks where WaPay-issued vouchers and payment codes are redeemable; availability may vary by store. All trademarks belong to their owners.

One wallet for the whole high street

Load at the spaza before work, buy electricity on the taxi, pay at the till at lunch, send money home tonight — without opening a single app.

— HOW YOUR WALLET IS BUILT

One wallet. Two balances.

Most services make you hand over your ID before you can do anything. WaPay flips it: start instantly with a spend balance, and only verify — once — when you want to take cash out.

Spend balance

Yours the second you say hello

- ✓ Open with just your WhatsApp number
- ✓ Load via voucher, Pay@, EFT or card
- ✓ Buy airtime, data, electricity & vouchers
- ✓ Pay in-store at 26,000+ retailers
- ✓ Send free to other WaPay users
- ✓ No ID document needed

NO ID NEEDED

Cash balance

Unlock with a once-off ID check

- ✓ Everything the spend balance does
- ✓ Cash out via PayShap, RTC or at tills
- ✓ Send to any bank account
- ✓ Higher transaction & balance limits
- ✓ FICA-verified in minutes, in the chat
- ✓ Never needed just to spend

ONE-TIME FICA CHECK

Upgrading takes minutes and happens right in the chat: send your ID details once, and your cash balance — with cash-outs and higher limits — switches on.

SAFE BY DESIGN

Serious about the boring stuff

A wallet you chat with still has to be a vault underneath. Six layers stand between your money and anyone who isn't you:

PIN + OTP on every transaction

Nothing moves without your secret PIN and a one-time password.

Device binding

Your account is locked to your phone. A new SIM or device can't just walk in.

Bank-grade encryption

TLS 1.3 and AES-256 protect every message and every cent.

Verified business account

Look for the WaPay tick on WhatsApp — that's how you know it's really us.

Tiered accounts

Start with just your number. Verify your ID once to unlock cash-outs and higher limits.

Every fee shown first

The fee appears in chat before you confirm. No surprises on a statement you never see.

The golden rule

WaPay will never ask for your PIN or OTP — not in chat, not on a call, not by SMS. Anyone who does is a scammer, no matter how official they sound. Look for the verified tick next to our name, and keep your PIN yours.

Your money moves only when you say so

Every send, purchase and cash-out needs your PIN, your OTP and your phone. Lose the phone? Message us from a new one and we'll lock and restore your account securely.

— WHY PEOPLE SWITCH

Six honest reasons

01 No ID to start

FNB's evolved eWallet asks for your name, ID number and source of funds up front. WaPay asks for a hello.

02 Free is the default

Wallet-to-wallet sends, airtime, data, electricity and bills — R0. The everyday things should cost nothing.

03 Flat fees you can say out loud

R6. R8. R12. Never 'R12 per R1,000' arithmetic, never percentages.

04 A chat, not a menu

Type 'send R50 to mama' in any of 5 languages. No USSD codes, no submenus, no app updates.

05 Betting & entertainment built in

Fund HollywoodBets, Betway or LottoStar and buy Netflix, Showmax or Spotify vouchers — no bank will do this in chat.

06 Fees shown before you pay

Every fee appears in the chat before you confirm. Nothing hides on a statement.

**The seventh reason: it takes 30 seconds to see for yourself**

Go to wapay.co.za, tap 'Start banking on WhatsApp', and say hi. If it doesn't feel like the future, you've lost half a minute.

SIDE BY SIDE

WaPay vs the evolved eWallet

Same WhatsApp. Very different philosophy. Here is how we stack up against FNB's eWallet, using their published 2026/27 pricing guide.

		FNB eWallet
Monthly wallet fee	✓ R0	R0
What you need to open an account	✓ A WhatsApp number. That's it.	Name, ID number and source of funds
Send to another wallet user	✓ FREE from your spend balance	R10 per eWallet send
Send to any SA cellphone number	✓ R3 voucher send	R10 eWallet send
Prepaid airtime & data	✓ FREE	R0.65 per purchase
Prepaid electricity	✓ FREE	R1 per purchase
DStv payment	✓ FREE	R7 per payment
Fund a betting account	✓ Yes — HollywoodBets, Betway, LottoStar & more	Not offered
Reverse a mistaken send	✓ FREE via chat support	R19.50 self-service / R85 contact centre
Inactivity fee	✓ None, ever	R7.50 per month after 6 months
Cash out	✗ R6–R14 flat, whatever the amount	R2–R12, some charged per R1,000
How you use it	✓ One AI chat — plain language, 5 SA languages	Menus on WhatsApp + USSD (*120*321#)

eWallet fees and features quoted from the FNB eWallet Annual Pricing Guide, 1 July 2026 – 30 June 2027 (fnb.co.za), retrieved August 2026. FNB and eWallet are trademarks of FirstRand Bank Limited, quoted for comparison only. Please verify current fees with each provider before deciding.

The short version

Everyday money is free on WaPay, you start with zero paperwork, and every fee is one flat number you approve in the chat. That's the whole pitch.

QUESTIONS, ANSWERED

You asked. We answered.

● Do I need to download an app?

No — WaPay runs 100% inside WhatsApp. If you can chat, you can WaPay.

● How do I put money in?

Buy BluVouchers at spaza shops, deposit at Pay@ retailers (Shoprite, Checkers, Pick n Pay), or use EFT, Capitec Pay or card.

● Is my money safe?

Bank-grade encryption, PIN protection, OTPs and device binding guard every transaction — and every fee is shown before you confirm.

● How long do deposits take?

BluVoucher and Pay@ deposits are instant. EFT transfers typically reflect within minutes.

● What do I need to open an account?

Just your phone number. No paperwork, no ID required to start.

● Can I send money to someone without WaPay?

Yes — send to any South African mobile number. They get a voucher they can redeem or spend.

● What are the account limits?

Entry-level accounts have basic limits. Complete a once-off FICA verification in chat to unlock higher limits and cash-outs.

● What if I change my SIM or phone?

Message support in the chat and we'll verify you and restore access securely.

Still curious?

The fastest FAQ is a conversation. Message WaPay on WhatsApp and ask anything — our AI answers instantly, and real humans are one 'agent' away.

Ready when you are.
